

CODING4KIDZ

A Club Operated by Del Norte AP Computer Science Students

We offer **FREE** coding classes to students 2nd - 8th grades

Languages Taught:

ROBLOX

In this language, we will teach you the basics of scripting in roblox using LUA to make awesome roblox games!

Pygame

With this language, you'll learn how to use Pygame, a branch of python, to create your very own 2D games from scratch!

SCRATCH

Using Scratch, you'll discover how to bring your ideas to life by creating fun, interactive games with simple block-based coding!
